§ 01

Summary

Director of Revenue Operations at Clearspeed (voice-analytics SaaS · financial services / government / security). Cross-functional team of four — RevOps, solution architects, partnerships. Strategic revenue growth: *25% YoY*. CRM / CSM integration that cut manual data entry *70%*. Sales analytics dashboards that cut report-generation time *50%* and lifted conversion *3 points*. Training program that improved team performance *40%*.

Senior Product Manager before that — *4.5 years* owning the full product lifecycle of an enterprise B2B SaaS for AI voice fraud detection. Wireframe to launch to post-release iteration. *30% time-to-market reduction, 50% customer-service-time reduction* via UI/UX redesign, *25% revenue growth* from a consumer GTM I crafted and shipped. MBA · St. Mary's. BS Industrial Psychology · Cal State Hayward, cum laude.

The AI work is mine, not assigned. Co-founded **PurpleChipmonk** (live SaaS, April 2026) — Next.js 15 + Supabase + Claude Sonnet 4.6 + Voyage embeddings + Stripe. Nine quality gates between LLM and user. Binary 90-day kill-or-scale gate. Outside that I run a stack of personal AI infrastructure: *fowler-brain* (version-controlled OS · 4 phases shipped), *Atlas Direct + Atlas3* (autonomous coding agents), *OpenClaw HQ* (three-tier multi-agent on Apple Silicon · 18 tok/s on a 70B model · \$0/Mtok). *Operators over thought leaders. Compound assets over one-time wins.*

DAY JOB · ENTERPRISE REVENUE OPERATIONS LEADERSHIP

JAN 2024 — PRESENT

Director of Revenue Operations — *Clearspeed*

Voice-analytics SaaS serving enterprises in financial services, government, and security verticals. Lead a team of 4 direct reports — revenue operations, solution architects, partnership management. Chicago, IL.

- **Strategic revenue growth:** designed and implemented comprehensive growth strategies — pricing-model optimization, sales-funnel efficiency, new-market expansion — yielding *25% YoY revenue increase*. Market research + competitive analysis to inform strategic decisions.
- **Data analytics + reporting:** SQL · Salesforce · Tableau dashboards monitoring sales performance and market trends. Reduced report generation time *50%*; lifted sales conversion *3 points*.
- **Cross-functional leadership:** aligned sales, marketing, customer success, and finance against common revenue targets. Collaborative framework improved team productivity *20%*; tightened interdepartmental communication.

- **Process optimization + automation:** spearheaded CRM ↔ CSM integration, automating key revenue-ops processes. Reduced manual data entry *70%*; minimized errors; supported scalable growth.
- **Training + development:** built and executed a training program — advanced sales analytics, financial modeling, strategic planning. Lifted team performance metrics *40%*.

PRIOR • ENTERPRISE SAAS PRODUCT MANAGEMENT

JUL 2019 — JAN 2024

Senior Product Manager — *Clearspeed*

Owned the complete product lifecycle of an enterprise B2B SaaS application for AI voice fraud detection — wireframe to launch to post-release iteration. Drove the prioritized product roadmap in Jira + Confluence. San Francisco, CA.

- Led product research, user-persona work, and mental-model behaviors. Synthesized stakeholder pain points to scope the MVP.
- Created stakeholder consensus across leadership, investors, and customers — presenting business cases and projected value-added for the redevelopment of the enterprise SaaS.
- Streamlined research and product-market-fit A/B testing to iterate on new features. *Reduced time to market 30%*.
- Designed UI / UX of a new back-end platform with new tools and methodologies for the operations team. *Decreased average customer-service time 50%*.
- Crafted product marketing materials and the GTM plan for a consumer-facing version of the enterprise SaaS, opening *25% revenue-growth opportunity*.

CO-FOUNDER • LIVE PRODUCT LIFESTYLE SAAS

APR 2026 — PRESENT

Co-founder • *PurpleChipmonk* (purplechipmonk.com)

50/50 co-founder with Zach Berenzweig. Lifestyle business — not raising, not optimizing for exit. Binary 90-day gate: 10 paid customers at list price by July 31, 2026 determines kill-or-scale.

- 18-skill agentic OS for the modern job search · Next.js 15 · tRPC · Supabase · Claude Sonnet 4.6 · Voyage AI embeddings · Stripe · Vercel
- Nine quality gates between LLM and user — prevents resume fabrication, comp-math errors, persona mismatch, fabricated experience claims
- Launched April 21, 2026 with binary 9/9 launch checklist · PostHog telemetry · Sentry-bridged structured error logs

- Authored full GTM operating doc — pricing strategy memo, partner alignment memo, channel ranking, launch checklist, weekly cadence

PERSONAL INFRASTRUCTURE MULTI-AGENT · LOCAL-FIRST

2026 — PRESENT

Operator · *OpenClaw HQ, Atlas Direct, Atlas3, fowler-brain*

A stack of named systems that compose into something larger than any one of them. All running on hardware I own. All US/EU model-origin only. All version-controlled, lessons-graduating, drift-reviewed weekly.

- **OpenClaw HQ** — three-tier multi-agent platform · BullMQ + Redis + pgvector · M3 Ultra · 96 GB unified memory · production-grade local inference
- **Atlas Direct** — autonomous RevOps build agent · nightly cloud trigger · scored ROADMAP · ships PRs to main · ~70 phases planned
- **Atlas3** — local Aider-based coding system · FastAPI service · compliant model stack (Mistral · Meta · Microsoft only)
- **fowler-brain** — version-controlled personal AI OS · 21 lessons captured · 11 workflows · 8 adapters · Saturday automated coaching review
